

## DESIGNLINE

Create the door of your dreams with designline

### PLAIN

The Plain style creates elegant accents with inlaid embellishments in stainless steel look.

### STEEL

The Steel style conveys a modern design through the surface-mounted embellishments in stainless steel look.

### STRIPE

The Stripe style with embossed grooves offers you a tasteful design with a little something extra.

### INLAY

The flush-fitting inlaid pilaster strips in Maple or Beech are the highlight of the Inlay style. The Inlay styles create a harmonious overall look.

### GROOVE

The grooves milled into the door leaf and the high-quality paint finish make the Groove style an elegant eye-catcher.

### GROOVEGLASS

For the perfect combination of timber and glass, the Groove styles are available with matching styles as an all-glass door with single-pane safety glass.

### RAIL

The timber and glass combination Rail is recommended as the perfect complement to the DesignLine timber door styles.

Product finishes and colours will vary due to the printing process and technology screen settings for digital viewing. These representations are not an exact match to actual product.

For RAL colours, using these CMYK references is entirely your choice, and accuracy should be checked, before you commit to use the RAL colours. \* RAL Classic colours, except for pearl-effect, fluorescent and metallic colours. \*\* Preferred colours for Sandgrain surface finish.

## DESIGNLINE / GLASSLINE

Glass doors are not only upmarket and chic, they contribute to an open and friendly design for your home and lend each room a particular charm. Allglass Doors are optionally available as a leaf door with a timber frame or a variofix frame as well as a sliding door with single-pane safety glass. The glass doors are equipped with different glass finishes depending on the style:

### SILKSCREEN

Design is united with the highest quality surface embellishment: The particularly scratchresistant surface is easy to clean and resistant to soiling.

### SAND-BLASTING

If you value individuality: The sandblasting technique draws delicate designs in the glass surface. The matte surface finish with nanocoating guarantees fewer fingerprints.

### LASER TECHNIQUE

This glass finish offers fine details and shading. The depth effect creates fascinating effects, which are further enhanced by the brilliance of the all-glass door.

### FLUTED GLASS

For a subtle touch that still attracts attention: The fluted glass captivates you through recesses in the glass with individual light refractions, creating a fascinating lighting atmosphere.

Product finishes and colours will vary due to the printing process and technology screen settings for digital viewing. These representations are not an exact match to actual product.

For RAL colours, using these CMYK references is entirely your choice, and accuracy should be checked, before you commit to use the RAL colours. \* RAL Classic colours, except for pearl-effect, fluorescent and metallic colours. \*\* Preferred colours for Sandgrain surface finish.

## DESIGNLINE / CLASSIC

For fans of the classic look and design aficionados

### GEORGIA

The high-quality profile strip for the Georgia door style is inlaid into grooves in the door leaf using traditional carpentry techniques, lending these styles an elegant appearance.

### CAROLINA

The panel frames of the Carolina door styles are created by an embossed profile in the door leaf. The high-quality paint coating gives the styles a smooth, brilliant colour surface.

### VIRGINIA

This classic door version, also called a panel door, consists of a frame construction with up to 2 friezes. The sections can be filled either with a glazing or a timber board.

Product finishes and colours will vary due to the printing process and technology screen settings for digital viewing. These representations are not an exact match to actual product.

For RAL colours, using these CMYK references is entirely your choice, and accuracy should be checked, before you commit to use the RAL colours. \* RAL Classic colours, except for pearl-effect, fluorescent and metallic colours. \*\* Preferred colours for Sandgrain surface finish.

(optional)

## STEEL FRAME VARIOFIX

In addition to the standard timber frames, all our internal doors are also available with the steel frame VarioFix. It is the ideal solution for apartment entrance doors and internal doors in the home and project sector where high resistance and durability are necessary. The VarioFix frame harmonises perfectly with other timber frames due to the frame face of 55 mm on both sides. This way, you can also use doors with different frames in one room or house. For the steel frame VarioFix, wall tolerances of up to 20 mm are no problem. The adjustable decorative rebate easily compensates for different wall thicknesses during renovations and new construction projects. The VarioFix frame is available in Traffic white RAL 9016 to match our door leaves in Duradecor White lacquer, White lacquer and RAL to choose.

The frame face of 55 mm on both sides of the VarioFix frame (fig. left) harmonises very well with timber frames (fig. right).

The VarioFix frame is especially robust and can withstand "accidents" with toy cars or run-ins with the vacuum cleaner.

The VarioFix frame is also suited for apartment doors with RC 2 security equipment and acoustic insulation.

## GLAZING CUT-OUTS

With our selection of glazing cut-outs, you can take your favourite style and make the personalised door of your dreams. Glazing cut-outs are available in the glazing of your choice.

*All door styles in the DesignLine Georgia, Vermont and Carolina ranges are available with glazing in the upper panels.*

## SIDE ELEMENTS AND TRANSOM LIGHTS

Side elements and transom lights flood your living spaces with light for that special flair. While side elements visually enhance the door sets, transom lights emphasise the room height. Transom panels underscore the ceiling-high appearance of the door set.

## HANDLES FOR SLIDING DOORS

Personalise your sliding door with the handle of your choice. We offer handles for glass doors and timber doors that tastefully complete the look of your sliding door.

### Handles for sliding doors

Handle recess, oval, matte stainless steel (for timber doors)

Handle recess, round, matte stainless steel (for timber doors)

Handle recess, angular, matte stainless steel (for timber doors)

Handle recess, round, closed, matte stainless steel (for glass doors)

Handle recess, angular, closed, matte stainless steel (for glass doors)

Pair of handle bars, Basic, round, Ø 25 mm, 400 mm length, matte stainless steel

Pair of handle bars, Basic, angular, 500 mm length, matte stainless steel

Pair of handle bars, Combi, push bar with one-sided handle plate, 400 mm length, matte stainless steel

For sliding doors that run within the wall, you can conceal the door leaf completely in the wall with a trip handle. The handle springs out at the press of a button, allowing you to close the door.

## FITTINGS FOR ALL - GLASS DOORS

For all-glass doors you can choose between a round and an angular fitting set, each of which can be combined with one of eight elegant stainless steel lever handles. Each variant is available in a lockable and non-locking version.
