

ROLLING SHUTTER / ROLLING GRILLE COMBINATION

With the SSG DD you can combine up to 3 doors with a movable mullion and thus close door openings of up to 36 m wide and 9 m high. The standard rolling shutters / rolling grilles can be operated individually or simultaneously. In order to release the complete openings, the coupling elements are simply pushed to the side.

HIGH SECURITY

INNOVATIVE TENSION SPRING ASSEMBLY

All rolling shutters / rolling grilles SB and underground garage rolling shutters / rolling grilles TGT are equipped with tension spring assembly. Thanks to this technology the door opens and closes particularly easily and the door and operator mechanism is protected.

QUICK DOOR OPENING

A MATCHING DOOR TYPE FOR EVERY PURPOSE

Compact and Space-Saving Night Door for Shopping Centres

Optimises the flow of traffic and reduces energy loss

LATHS OR CURTAINS FOR EVERY PURPOSE

ROLLING SHUTTER LATHS

DECOTHERM S, HR 116 A

Double-skinned and thermally insulated

- 1 Decotherm S, steel
- 2 HR 116 A, aluminium

ROLLING SHUTTER LATHS

HR 120 A / S, HR 120 AERO

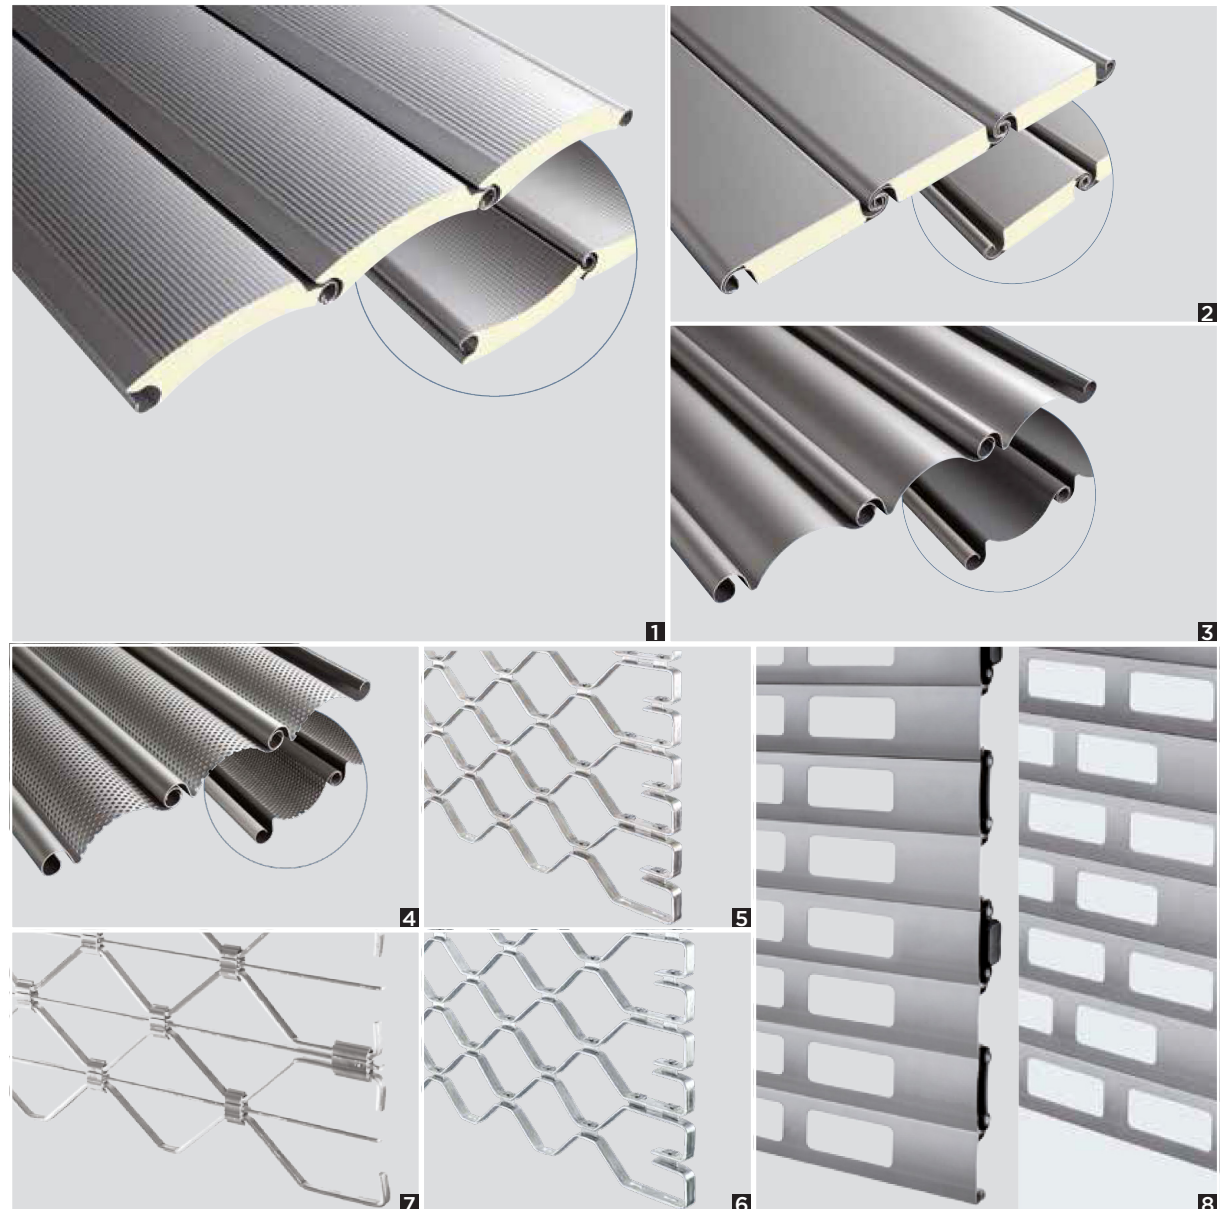

Single-skinned

- 3 HR 120 A, aluminium
- 4 HR 120 aero, aluminium

ROLLING GRILLE CURTAINS

HG-V, HG-S, HG-L, HG 75

- 5 HG-V, aluminium (reinforced)
- 6 HG-S, steel
- 7 HG-L, aluminium
- 8 HG 75, aluminium

SIDE MATCHING DOOR

SIDE DOOR NT 60 R FOR ROLLING SHUTTERS VIEWED FROM OUTSIDE

Viewed from inside with 3-way adjustable hinge

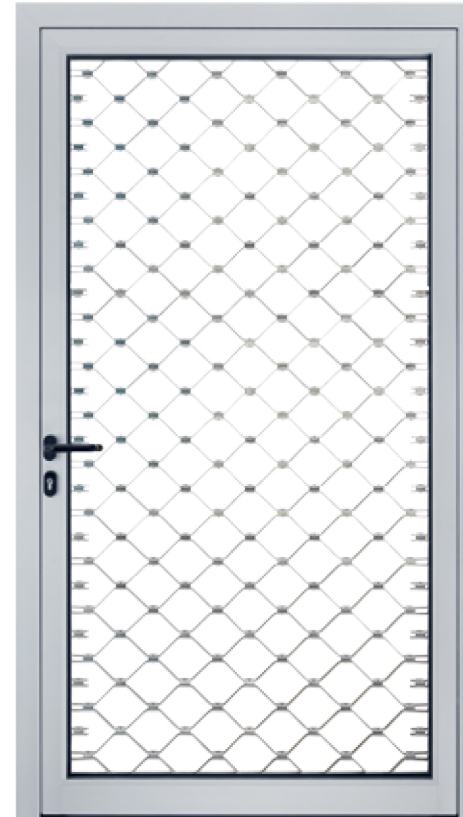

Viewed from inside with synthetic glazing

Lever handle set as standard

SIDE DOOR NT 60 R FOR ROLLING GRILLES VIEWED FROM OUTSIDE

Viewed from inside with 3-way adjustable hinge

Optional additional synthetic panel provide protection to exclude the possibility of reaching through

Lever handle set as standard

STEEL SIDE DOORS WITH THERMAL BREAK

Multi-purpose door MZ Thermo 65

- 65-mm-thick door leaf with thermal break and PU rigid foam infill
- Aluminium block frame with thermal break and threshold with thermal break
- High thermal insulation with a U value = 0.82 W/ (m²·K)
- Optionally available in a RC 2 KSI Thermo version with 42-mm-thick door leaf

CONTEMPORARY THINKING TIMELESS STYLE

MATCHING DOOR COLOURS FOR THE FACADE

Coloured doors are increasingly used as design elements in modern industrial and commercial architecture. Due to their size alone, industrial rolling shutters and rolling grilles already play a key role in determining the visual appearance of the facade. This is why Hörmann offers you high-quality curtain coatings in more than 1000 RAL colours.

HIGH-GRADE COLOUR COATING

Coil-coated rolling shutter laths provide long-term protection against adverse weather effects for surface finishes. Additional protective paint with polyamide particles reduces abrasion and noise.

All curtain and door types feature a bright-rolled bottom profile.

Standard colours

Preferred colours**

Special colours according to RAL

The colours shown are subject to the limitations of the printing process and cannot be regarded as binding.

All colours based on RAL.
Slight colour variations are permissible.

- 1 RAL 9002 Traffic white
- 2 RAL 9006 White aluminium*
- 3 RAL 9016 Traffic white***
- 4 RAL 9007 Grey aluminium
- 5 RAL 8028 Terra brown
- 6 RAL 7016 Anthracite grey
- 7 RAL 6005 Moss green
- 8 RAL 5010 Gentian blue
- 9 RAL 3000 Flame red

* Not for HR 116

** Not for HR 120 aero and HR 116

*** For Decotherm S

Product finishes and colours will vary due to the printing process and technology screen settings for digital viewing. These representations are not an exact match to actual product. For RAL colours, using these CMYK references is entirely your choice, and accuracy should be checked, before you commit to use the RAL colours. * RAL Classic colours, except for pearl-effect, fluorescent and metallic colours. ** Preferred colours for Sandgrain surface finish.
